Question 3

0 2

Charlie has just started at a new school. He has become friendly with a group of boys in his year group. Charlie thinks they are 'cool'.

box

One day, one of the more popular boys in the group suggests they all wear their school jumpers inside-out for a week, 'just to see what will happen'. Charlie worries about this all night but still goes to school the following day wearing his jumper inside-out.

Use your knowledge of conformity to explain Charlie's behaviour.

Question 5

Students Natasha and Tanya are buying food in the supermarket on their way home from school. As they are paying, they notice their psychology teacher, Mr Boat, at the far end of the queue. They both smile and wave.

Mr Boat shouts, "Hey, you two! I think you owe me homework. Wait there so we can have a quick chat."

Natasha and Tanya finish paying, glance at each other giggling and hurry out of the supermarket.

0 2

Using your knowledge of obedience research, explain possible reasons why the students failed to obey their teacher.

Question 10

0 9

Two police officers are discussing the testimony of an eyewitness. The eyewitness had described a robbery she had seen.

'At first, the witness said she was convinced the suspect was wearing glasses and had a limp,' explained one of the officers, 'but later she said she may have just been repeating what she'd heard from other witnesses.'

'I'm not sure we're going to be able to use her statement,' replied the other officer.

Discuss the effect of post-event discussion on the accuracy of eyewitness testimony. Refer to the information above in your answer.
