2.1.2 What do you understand by the *law of diminishing returns*? (1x2) (2)

2.2 Study the scenario below and answer the questions that follow.

AIRPORTS COMPANY SOUTH AFRICA (ACSA)

ACSA talks a great deal about customer-focused services, but its actions demonstrate its contempt for its customers. One needs to look no further than the airline industry to see the benefits of introducing competition into the market. Not everybody may like low cost carriers like *Kulula* and *Airfreight*, but they give people options and together with price comparison sites like *southafricato*, have dramatically driven down airline prices. Competition has transformed the airline industry, yet a regulated monopoly continues to deliver a service with endless waits for baggage, high levels of theft and airport security lapses.
