### ***Note to teachers and students on the use of published marking schemes***

Marking schemes published by the State Examinations Commission are not intended to be standalone documents. They are an essential resource for examiners who receive training in the correct interpretation and application of the scheme. This training involves, among other things, marking samples of student work and discussing the marks awarded, so as to clarify the correct application of the scheme. The work of examiners is subsequently monitored by Advising Examiners to ensure consistent and accurate application of the marking scheme. This process is overseen by the Chief Examiner, usually assisted by a Chief Advising Examiner. The Chief Examiner is the final authority regarding whether or not the marking scheme has been correctly applied to any piece of candidate work.

Marking schemes are working documents. While a draft marking scheme is prepared in advance of the examination, the scheme is not finalised until examiners have applied it to candidates' work and the feedback from all examiners has been collated and considered in light of the full range of responses of candidates, the overall level of difficulty of the examination and the need to maintain consistency in standards from year to year. This published document contains the finalised scheme, as it was applied to all candidates' work. In the case of marking schemes that include model solutions or answers, it should be noted that these are not intended to be exhaustive. Variations and alternatives may also be acceptable. Examiners must consider all answers on their merits, and will have consulted with their Advising Examiners when in doubt.

### **Future Marking Schemes**

Assumptions about future marking schemes on the basis of past schemes should be avoided. While the underlying assessment principles remain the same, the details of the marking of a particular type of question may change in the context of the contribution of that question to the overall examination in a given year. The Chief Examiner in any given year has the responsibility to determine how best to ensure the fair and accurate assessment of candidates' work and to ensure consistency in the standard of the assessment from year to year. Accordingly, aspects of the structure, detail and application of the marking scheme for a particular examination are subject to change from one year to the next without notice.

## **General Introduction**

The assessment of Religious Education at Junior Certificate Higher Level is based on the objectives relating to knowledge, understanding, skills and attitudes within each section of the Junior Certificate Religious Education syllabus published by the Department of Education and Skills in 2000.

The detail required in any answer is determined by the context and the manner in which the question is asked, as well as by the number of marks assigned to the question in the examination. Requirements may therefore vary from year to year. Words, expressions or phrases must be correctly used in context and not contradicted and where there is evidence of incorrect use or contradiction, the marks may not be awarded. Where a mark is graded in the marking scheme, the mark for the answer to the question is awarded within a range from excellent to very good, good, fair, weak, very weak or no grade.

The support notes presented in this marking scheme are neither exhaustive nor complete. Further relevant points presented by candidates will be marked and rewarded on their merits. In many cases only key phrases are given which contain the information and ideas that must appear in the candidate's answer in order to merit the assigned marks. The descriptions and definitions in the scheme are not exhaustive and alternative valid answers are acceptable. If you are unsure of the validity of an alternative answer, contact your Advising Examiner.

### *General Guidelines for Completion of the Journal Booklet*

Titles for journal work are common to Ordinary Level and Higher Level.

Students are requested to submit journal work on one title only.

In undertaking journal work students may work in groups or undertake a visit or investigation as a whole class. However, each student must complete and submit an individual journal for assessment. The cues/prompts in each section of the booklet may be used where relevant to assist students in completing their journals. Students may draw diagrams/illustrations directly onto the Journal Booklet. They should not, however, attach or affix material to the Journal Booklet.

*In completing the Journal Booklet Section One - Introduction the student should:*

- Indicate whether he/she did journal work on his/her own, or as part of a group/ whole class
- Identify the title he/she chose from their prescribed list for journal work
- Name a personal title for their journal work that is relevant to the prescribed title and indicative of the student's own personal experience
- State the reason why he/she personally chose this title. Explain how the chosen title generated personal interest or enthusiasm or the way in which he/she had a particular concern about this topic
- Describe what he/she hoped to achieve/learn/find out by doing journal work on the chosen title.

*In completing the Journal Booklet Section Two – Getting Started the student should:*

- Describe the way(s) he/she planned to personally engage with the chosen title and identify the skill(s) he/she hoped to use.

*In completing the Journal Booklet Section Three - Work the student should:*

- Describe the work in which he/she personally engaged. If the student did journal work as part of a group/whole class, he/she should describe the work in which the group or whole class engaged, as well as the work done by him/her personally
- State the reason why he/she chose this way of doing journal work
- Describe his/her reaction to the work engaged in for the journal. If the student did journal work as part of a group/whole class, he/she should describe the reaction of the group or whole class, as well as indicating whether it was similar to or different from his/her own personal reaction.

*In completing the Journal Booklet Section Four – Discoveries the student should:*

- State what he/she learned from doing journal work on the chosen title
- Describe the effect doing journal work had on him/her
- Identify two skills he/she used in doing journal work on this title and describe how he/she used them
- Identify two links between his/her journal work and other aspects of the Junior Certificate Religious Education course.

*In completing the Journal Booklet Section Five – Looking Back the student should:*

- Reflect on and evaluate how he/she approached doing journal work on his/her chosen title
- Indicate what went well in his/her journal work
- Identify how he/she would do journal work differently if starting again.

## Journal Work

The aims of journal work are:

- to afford the students the opportunity to encounter the lived reality of religion today
- to facilitate the exploration of an area of personal interest or concern
- to offer an opportunity for reflection on that encounter and exploration
- to support the development of skills in reflection, engagement, analysis and the identification of future action

The inclusion of journal work as an assessment component gives students an opportunity to demonstrate the broadest range of the knowledge, understanding, skills and attitudes within the objectives of the syllabus.
